U.S. 160 chip seal begins Aug. 9

Thursday, Aug. 9, weather permitting, the Kansas Department of Transportation (KDOT) expects to start placing a chip seal on a section of U.S. 160 in Montgomery County. The project starts at the west junction of U.S. 160/U.S. 75 and continues west for 17 miles to end at the Montgomery/Elk county line.

Flaggers and a pilot car will direct one-lane traffic through the work zone during daylight hours; expect delays of 15 minutes or less. The road work should be completed in one week, weather permitting.

KDOT awarded the \$464,000 construction contract to Mid America Road Builders of Platte City, Mo. Drivers are reminded to watch for the signs and flaggers, and to "Give 'Em a Brake!" at the work zone. Persons with questions may contact KDOT Independence Area Engineer Darrin Petrowsky at (620) 577-7312 or Public Affairs Manager Priscilla Petersen at (620) 902-6433.
