## Traffic signal relocation project to begin at Frontenac

The week of Nov. 12 the Kansas Department of Transportation (KDOT) expects to begin a project to relocate a traffic signal in the southeastern quadrant of the U.S. 69/U.S. 160 junction at Frontenac.

Project activity includes upgrading the signal lights at the intersection and pouring the base for the new traffic signal pole. The signal that is being relocated will continue to function until the new pole has been installed at this location.

KDOT awarded the construction contract of \$41,800 to CDL Electric Co., Inc., of Pittsburg. The work should be finished in 10 days, weather permitting. Bob Gudgen, construction engineer at the Pittsburg KDOT office, reminds drivers to slow down and 'Give 'Em a Brake!' at the work zone. Persons with questions may contact Gudgen at (620) 308-7622.
