KDOT employee celebrates 30-year milestone

Robyn Daniels, Engineering Technician Specialist at the Independence area office of the Kansas Department of Transportation (KDOT) has achieved a milestone and is celebrating 30 years of valued service in May 2018.

Daniels began her career with KDOT on May 18, 1988, as an Office Assistant at Independence. Seven years later she became an Engineering Technician (ET) Associate, and promoted through the construction ranks as an ET, ET Senior and ET Specialist. In her current position Daniels supervises construction staff members and oversees KDOT projects in Montgomery, Wilson, Elk and Chautauqua counties.

She was among the KDOT employees who developed and constructed the U.S. 400 corridor in southeast Kansas. Among the greatest changes Daniels has experienced through the years is the transition from carbon paper and "multiple copies of change orders" to electronic systems for contract administration and record keeping.

She and her husband Terry live in Independence. The couple has three daughters.
