KDOT posts 2008 annual report

The Kansas Department of Transportation's 2008 annual report, which details the agency's progress, accomplishments and challenges of 2007, has been posted on the KDOT Web site.

In 2007, KDOT completed the draft Kansas Long Range Transportation Plan; maintained the agency's traditional dedication to safety, system maintenance and preservation; completed major projects and started others. The agency also faced many challenges last year. Among them were natural disasters, new infrastructure needs and future funding uncertainties.

In addition to a review of the year's activities, the report includes an appendix that has details of project selection, a description of all projects scheduled for the Comprehensive Transportation Program (fiscal years 2000 to 2009), financial information and more. The report and appendix can be viewed at www.ksdot.org/publications.asp.

In keeping with S.B. 357, which was passed by the 2007 Legislature and intended to reduce spending by all state agencies on the printing of annual reports, a limited number of paper copies of the report are available by calling KDOT's Bureau of Transportation Information at 785-296-3585, or sending an e-mail to publicinfo@ksdot.org.
