KDOT to make bridge repairs on K-99

Wednesday, Sept. 12, the Kansas Department of Transportation (KDOT) expects to begin a repair and resurfacing project on a bridge on K-99 in Greenwood County. The bridge is almost one mile north of the K-58 junction at Madison.

According to KDOT Iola Area Construction Engineer Jerod Kelley, project activities include repairing the north bridge abutment, the north approach panels and the expansion joint on the south end. A polymer overlay will be placed on the bridge deck to seal the surface.

Temporary signals will control one-lane traffic at the bridge. Motorists can expect brief delays. KDOT awarded the construction contract of \$191,971 to King Construction Company, Hesston, Kan. The project should be finished by the end of October, weather permitting.

Kelley reminds motorists to obey the signals, reduce their driving speed through the work zone, and "Give 'Em A Brake!" Persons with questions concerning the project may contact Kelley at (620) 365-2161 or KDOT Southeast Kansas Public Affairs Manager Priscilla Petersen at 1-877-550-5368. The project is funded under the T-WORKS transportation program. For additional information concerning T-WORKS, visit the website, www.ksdot.org/tworks.
