KDOT repairing bridge on K-99 north of Madison

The Kansas Department of Transportation (KDOT) has begun a bridge repair on K-99 in Greenwood County. The bridge is almost one mile north of the K-58 junction at Madison.

Activities include repairing the expansion joint at the south end and placing a polymer overlay to seal both ends of the bridge.

Flaggers are guiding one-lane traffic through the work zone; expect brief delays. KDOT awarded the construction contract of \$211,365 to King Construction Company, Hesston, Kan. The work should be finished by the end of October, weather permitting.

KDOT Iola Area Construction Engineer Jerod Kelley reminds motorists to obey the signs and flaggers, reduce their driving speed through the work zone, and "Give 'Em a Brake!" Persons with questions concerning the project may contact Kelley at (620) 365-2161 or KDOT Southeast Kansas Public Affairs Manager Priscilla Petersen at 1-877-550-5368. The project is funded under the T-WORKS transportation program. For additional information concerning T-WORKS, visit the website, www.ksdot.org/tworks.
