Bridge repair on U.S. 400 to start June 17

Monday, June 17, the Kansas Department of Transportation (KDOT) will begin a repair project at the Neosho River Bridge on U.S. 400. The bridge is 8¼ miles east of the U.S.59/U.S.400 junction at Parsons.

The project consists of replacing the slab approaches on both ends of the bridge. Traffic will experience brief delays at the work zone, which will be reduced to one lane controlled by signals. KDOT expects the project to be finished by early September, weather permitting.

KDOT awarded the \$147,403 construction contract to Bridges Inc. of Newton, Kan. This preservation project is part of the T-WORKS transportation program. Those with questions may contact KDOT Pittsburg Area Construction Engineer Bob Gudgen, (620) 231-7560, or KDOT Southeast District Public Affairs Manager Priscilla Petersen, (620) 431-1000. For more information concerning T-WORKS projects visit the website, www.ksdot.org/tworks.
